List of Tables

1 Introduction

open-innovation-projects.org (*OIP* in the text following) lists mostly OSHW projects and systematically categorizes them. Out of the ~150 listed entries, the following 109 retained our attention in the context of OSHWL:

title	OSHWL path	keywords from OIP
3G Stoves	energy/thermal/stoves	stove, 3g, woodgas, tlud, biomass
Absorber Roof	energy/solar/thermal	solar, thermal, collector, roof, intergrated
Abundant Water	water treatment	Clean Drinking Water, clay pot water filter, water, appropriate technology
Agua Clara	water treatment	water treatment, water, development, water purification
Akvo	water	water sanitation development
Always Innovating Touch Book (AITB)	electro-it-monit	
Arduino	electro-it-monit	-
Atari Coldfire	electro-it-monit	
Aurora OS Mixer	audio-visual	
AVR Butterfly Logger (AVR BL)	electro-it-monit	
AVR Butterfly MP3 (AVR BM)	audio-visual	
AX84 Firefly	audio-visual	
Balloon	electro-it-monit	
Beagle Board	electro-it-monit	
Ben NanoNote	electro-it-monit	
Biobricks	health	
BitsFromBytes	robo-manuf	
Brewtopia	food/prepare	
Canuckle LEDlights	energy/light	solar, energy, green, DIY, alternative, sun, heating, electricity, solar cooking, solar concentration, heliostat
Cfree OS Optics	audio-visual/optics	Optics, Telescope, Renewable Thermoplastic Resin, Membrane Mirror, Renewable Thin Film Mirror, Cosmos
Chumby	electro-it-monit	
Contraptor	structures/assemblies	cnc, cartesian robot, construction set, arduino, 3d printer, g-code
Craftster	oshw-mgmt	
Crypto Stick	electro-it-monit	
Cubespawn	robo-manuf	open source, flexible manufacturing system, FMS, factory, robot
Daisy MP3	audio-visual	
diy_efi	transport/propulsion	
Elphel	audio-visual	
Ethernut	electro-it-monit	
Etherrape	electro-it-monit	
Fab Camera	audio-visual	
Fab@Home	robo-manuf	
Flash-Plaice	electro-it-monit	
Fnordlicht	audio-visual	
Formica	robo-manuf	

Tab. 1: OIP entries treated by OSHWL (1/3)

title	OSHWL path	keywords from OIP
Free Art Bureau	oshw-mgmt	
Free Beer	food/prepare	
Freeduino	electro-it-monit	
Gumstix	electro-it-monit	
HD Video Capture	audio-visual	
Hexayurt	structures/construction	
Im-FFeeder	food/grow	automatic, feeder, fish, pet, pond, aquarium
IP04 (4-Port IP-PBX)	electro-it-monit	
IP08 (8-Port IP-PBX)	electro-it-monit	
iRobot	robo-manuf	
K People	oshw-mgmt	knowledge worker
LED Stripe	audio-visual	
Linux omap	electro-it-monit	
Local Motors	transport/road/cars	
MakerBot	robo-manuf	
Mikrokopter	transport/aeronautics	
Milkymist	audio-visual	
MISA	audio-visual	
MyOpenRouter	electro-it-monit	
Neuros Link	audio-visual	
Neuros OSD	audio-visual	
Niftymitter	electro-it-monit	
oBiCo	transport/road/bicycle	
OMFootCtrl	electro-it-monit	
OLPC	electro-it-monit	
O. Architecture Network (OAN)	structures/construction	
O. Garments	robo-manuf/manuf/textile	
O. Moto X	transport/road	Race, motorcycle, ttxgp, electric
O. Pandora	audio-visual	
O. Prosthetics Project (OPP)	health	
OS Cookbook	food/prepare	
OS Ecology	oshw-mgmt	open source economy, efficient economy
OS Washing Machine (OSWM)	cleaning/laundry	

Tab. 2: OIP entries treated by OSHWL (2/3)

title	OSHWL path	keywords from OIP
O. Waterbike Project (OWbP)	transport/water	
OS BHKW	energy/thermal/cogen	
OpenBeacon	electro-it-monit	
OpenCola	food/prepare	
OpenEEG	health	
openenergymonitor	electro-it-monit	
openEyes	electro-it-monit	
OpenMini 650 Sailboat (OM650)	transport/water	
OpenMoko	electro-it-monit	
OpenPCD	electro-it-monit	
OpenRemote	electro-it-monit	
OpenServo	robo-manuf	
OpenSpace	oshw-mgmt	creativity brainstorming documentation
OpenSPARC	electro-it-monit	
OpenWrt	electro-it-monit	
OScar project	transport/road/cars	
PC Engines	electro-it-monit	
Rallylog	electro-it-monit	
Ravelry	robo-manuf/manuf/textile	
RepRap	robo-manuf	printer, 3d printer
RFID door opener	structures/assemblies/locks	
RiverSimple	transport/road	hydrogen, electric vehicle
RONJA	audio-visual/optics	
Sanguino	electro-it-monit	
Semitone Dimmers	audio-visual	
Solar Cooking Archive (SCA)	energy/solar/thermal	
solar tracking	energy/solar/tracking	
Spiffchorder	audio-visual	
SquidBee	electro-it-monit	
Stribe	audio-visual	
Stroblt Triggr	audio-visual	
Thingiverse	robo-manuf	Designs
Traxmod	audio-visual	
zeroclock	electro-it-monit	
Zoybar	audio-visual	

Tab. 3: OIP entries treated by OSHWL (3/3)

We will also apply the same "standardized" categorization effort to the following OSHW(L) projects, not listed by OIP (table 4):

title	OSHWL path	keywords

Tab. 4: other OSHWL projects categorized according to OIP's method

The following is the categorization itself (in tables making overview and comparison easy, as opposed to individual project sheets as is the case on open-innovation-projects.org), copied from OIP for the projects they list and complemented with the projects from table 4.

There are three groups of criteria:

- project details

- product details

- institutional design and production

2   Project details

First, a description of the categories in the table directly following.

project type

single project   One or more specific product(s) is/are shown and/or developed

collection of projects Overview over several different projects or product, e.g. OIP itself

development Status   Current stage of development according to the following:

1   Planning/Virtual development - Ideas and digital dev. evolving

2   Prototyping started - First physical proto. assembled, testing phase

3   First working proto. - Working proto. av., release to community, further dev. needed

4   Production stable - Fully functional product permanently av. on market, further dev. possible

5   Mature - Final dev. stage reached, no further dev. necessary

Inactive   Dev. stopped, no final product av.

In case several products are being developed, the stage of the most advanced product is indicated.

community size   Approximate community size or number of users involved.

number of developers   Approximate number of active developers.

license and trademark

- whether the project is using an open license and of which type
- whether they have a registered trademark

country   Main location, i.e. home country of the project leader, the core team or the office location.

start year   Year in which the project was initiated.

project contact   Project contact person and/or address

intended audience   Target group of the project according to the following criteria:

end user   Everybody from school kids to your grandmother.

adv. end user Product will target end users, but usage may require specific knowledge.

developer   No intention to reach end users, high specific knowledge necessary.

other   All other groups, for example educational purposes

3 Product details

First, a description of the categories in the table directly following.

Product innovativeness   Degree of innovativeness according to the following criteria:

5	Radical innovation - a new technology that results in a new market infrastructure, e.g. an innovation which does not address a recognized demand but instead creates a demand previously unrecognized by the consumer
4	Really new innovation - a really new product results in a market discontinuity or a technological discontinuity but will not incorporate both, e.g., new product lines, product line extensions with new technology, or new markets with existing technology
3	Discontinous innovations - new technologies that don't lead to discontinuity in existing markets
2	Incremental innovations - products that provide new features, benefits, or improvements to the existing technology in the existing market
1	Imitative innovations - imitative products are frequently new to the firm, but not new to the market

Product complexity   Degree of complexity for the developed product ranging from low complexity, e.g. a simple wooden chair, to high complexity, e.g. an aircraft or a nuclear power plant.

Industry   Suitable industry from a list.

4 Institutional design and production

First, a description of the categories in the table directly following.

contribution

user   whether private persons or users are actively involved in the development.

commercial whether commercial companies are actively involved in the development.

research   whether research institutions are actively involved in the development.

type of collaboration

collective development of...

> *one common product* if a community is commonly developing one product.
>
> *several common products* if a community is commonly developing several different products.

published knowledge...

> *with some coll. dev.* if instructions or ideas are published and others make comments and suggestions.
>
> *without collective dev.* if information is purely revealed.

activity   activity level in the community or developer group...

1   low (up to one interaction per month on average)

2   medium

3   high (daily interaction)

community communication   major communication channels used within the project community

face-to-face people tend to interact in person.

mailing lists at least one mailinglist is used frequently.

chat   the community has at least one active chat.

board   a board/discussion forum is used.

other   other communication channels as wikis, blogs, etc. have been established.

degree of openness   Parts of the product which are freely available:

software   all software and other non-physical, content parts are open source.

hardware interfaces   hardware specifications and interfaces are layed openergy

case design   if applicable the case design is available, e.g. as CAD for download.

mechanics/schematics mechanical parts, circuits, designs, etc. are freely available.

entirely open   the project is revealing all available information.

development driver   main drivers of the development, i.e. the group(s) of people pushing forward the project. Related company or association refers to a company closely related to the project, for example the investing company.

production   entity responsible for production. Related company or assoc. refers to an entity closely related to the project or with a production mandate. "Outsourced" is whenever an external party is paid for supplying components.
